

SMART **TECHNOLOGIES** FOR **PERGOLA** SYSTEMS

Pergola system Wireless and Smart

Complete range of product for the automation of pergolas and winter gardens.
Control of motorised pergola roof and screens, lighting and heating control by wireless technologies RF and Smart WiFi, with cutting edge remote controls, sensors and Smartphone App for managing the system from wherever you are.

PRG

Control unit for adjustable slats

AVAILABLE VERSIONS

PRG-M24

Control unit for 1 or 2 linear 24V motors for moving adjustable slats. Integrated radio receiver 433,92MHz, 2 wired inputs for push-button command. Inputs for sun, rain, wind and temperature sensors. 24V Power supply.

PR-M24/One

Control unit for 1 or 2 linear 24V motors for moving adjustable slats. Integrated radio receiver 433,92MHz, 2 wired inputs for push-button command, Smartphone control with WiFi-Cloud technology. Inputs for sun, rain, wind and temperature sensors. 24V Power supply.

Code	PRG-M24	PRG-M24/ONE
Power supply	24 Vdc	24 Vdc
Motors	2 x Max 100W	2 x Max 100W
Command inputs	2 NO Push buttons	2 NO Push buttons
Wired weather sensors	Wind or Sun Rain - Snow	Wind or Sun Rain - Snow
Radio frequency	433.920 MHz ISM	433.920 MHz ISM
Wireless Smart	-	WiFi 2,4GHz
Remote smart control	-	App OneSmart
IP protection	IP55	IP55
Working temperature	-20 +55 °C	-20 +55 °C
Dimensions	310x70x80 mm	310x70x80 mm

LED BOX - LED CONTROL

Control unit with integrated power supply for the control of 24V LEDs in constant voltage. With a simple programming it is possible to set the desired operating mode: Dimmer for white / single color LEDs, CCT, RGB and RGBW for the management of the temperature and color of the light. Integrated radio receiver and WiFi module for a wireless control via radio remote controls and remotely with smartphone.

Control accessories

Smart control. Page 30

AVAILABLE VERSIONS

LB-50/One

Control unit for 24Vdc LEDs, 4 outputs with settable mode for white or single-color LEDs, CCT, RGB and RGBW. 433.92MHz radio receiver. 1 wired input settable as button or switch. Integrated WiFi module for remote control via OneSmart App and voice control. Integrated power supply, max 50W.

LB-100/One

Control unit for 24Vdc LEDs, 4 outputs with settable mode for white or single-color LEDs, CCT, RGB and RGBW. 433.92MHz radio receiver. 1 wired input settable as button or switch. Integrated WiFi module for remote control via OneSmart App and voice control. Integrated power supply, max 100W.

LB-150/One

Control unit for 24Vdc LEDs, 4 outputs with settable mode for white or single-color LEDs, CCT, RGB and RGBW. 433.92MHz radio receiver. 1 wired input settable as button or switch. Integrated WiFi module for remote control via OneSmart App and voice control. Integrated power supply, max 150W.

LB-DIM50/One

Control unit for 4 single or synchronized Led lights 24V with On-Off-Dimmer function. 433.92MHz radio receiver. 1 wired input settable as button or switch. Integrated WiFi module for remote control via OneSmart App and voice control. Integrated power supply, max 50W.

LB-DIM100/One

Control unit for 4 single or synchronized Led lights 24V with On-Off-Dimmer function. 433.92MHz radio receiver. 1 wired input settable as button or switch. Integrated WiFi module for remote control via OneSmart App and voice control. Integrated power supply, max 100W.

LB-DIM150/One

Control unit for 4 single or synchronized Led lights 24V with On-Off-Dimmer function. 433.92MHz radio receiver. 1 wired input settable as button or switch. Integrated WiFi module for remote control via OneSmart App and voice control. Integrated power supply, max 150W.

Code	LB-50 / -100 / -150 / ONE	LB-DIM 50/-100/-150/ONE
Power supply	230 Vac	230 Vac
Integrated power supply	50 W / 100W / 150W	50 W / 100W / 150W
Load	Led 24 Vdc Max 50W	Led 24 Vdc Max 50W
Settable function	Dimmer 1 output, CCT, RGB/W	Dimmer 1,2,3,4 outputs
Inputs	1 NO push button	1 NO push button
No. Prog. transmitters	30	30

HOBLO

Portable multi-function remote control

WIRELESS COMMAND

Multifunctional remote control for controlling, singularly or in a group, up to 30 devices. One single remote for managing all the pergola system, thanks to the double display with 7 segments it's possible to select each device easily. Hoblo 80 has a very robust design and is easy to use thanks to its aluminium alloy structure, the shock-proof polycarbonate plastic parts, and the magnetic support on the wall. Dimensions: Diameter 80 mm x h 13 mm. Battery : CR2450. Radio range: 60 m in open space, 30 m inside the buildings.

HOBLO

Portable multi-function remote control

HB80-PRG200

Remote control for motorised roof (☰), Lights (L), motorised vertical screens (||) and heaters (H)
 By the Display it's possible to select the control of one or more motors, one or more lighting lines (L1, L2, L3...), one or more vertical screens and one or more heaters. It's also possible activate or deactivate the weather sensors.
 In the set-up phase it's possible to programm the numbers of motors, lights, screens and heaters to control in order to visualize only the exact number of device to manage.

KEY BUTTON	ROOF MODE ☰	LIGHT MODE L	SCREEN MODE	HEATER MODE H
+		Device selection +		
%	Partial opening	Dimmer by step (25-50-75-100%)	-	-
▲	Opening	Dimmer UP	Opening UP	On
▼	Closing	Dimmer Down	Closing DOWN	Off
□	Stop	On-Off	Stop	On-Off
-		Device selection -		

OPTIMA

Wall remote control

WIRELESS COMMAND

Wall radiotransmitter available in 3 versions and 2 type of power supply: by battery with surface mounting and by main 230V for recessed electric box. Minimal and posh design for a perfect integration in any environment, it's built with mechanical sturdy push buttons that can be activated pushing any point of their area..

OPTIMA

Wall remote control

OPT-2G

Rolling Code 433,92MHz radiotransmitter,
2 buttons with selectable function.
Battery CR2450

OPT-2G/PW

230Vac power supply version

OPT-4G

Rolling Code 433,92MHz radiotransmitter,
4 buttons with selectable function.
Battery CR2450

OPT-4G/PW

230Vac power supply version

OPT-8G

Rolling Code 433,92MHz radiotransmitter,
8 buttons with selectable function.
Battery CR2450

OPT-8G/PW

230Vac power supply version

BY BATTERY OR 230V POWER SUPPLY

Dimensions: 80 x 80 mm x h 11 mm.

Battery : CR2450.

Range: 60 m in open spaces, 30m inside the buildings

LINEA-4R

Portable remote control

WIRELESS COMMAND

Four channels 433,92MHz remote control with Rolling Code technology. Minimal ultra-thin design with 2 color versions: dark gray and white. Linea is compatible with all the Nexta tech control units, during the pairing procedure with the receiver it's possible to chose the function of each button.

LINEA-4R

Portable remote control

LINEA-4R

Rolling Code 433,92MHz radiotransmitter,
4 buttons with selectable function.
Battery CR2032. Color dark gray.

LINEA-4R/W

Rolling Code 433,92MHz radiotransmitter,
4 buttons with selectable function.
Battery CR2032. Color white.

POCKET-SIZE DESIGN

Dimensions: 36 x 71 mm, height 8 mm

Battery : CR2032 - Battery life 4 years

Range: 80 m in open space, 30 m inside the buildings

SAFETY AND COMFORT

Weather sensor for an automatic and safe functioning of the motorised roofs and vertical screens.

The wired connection with the control units allows precise and reliable commands.

MT-W

Anemometer. Wind speed sensor with wired contact 200mA 100Vdc. Max length connection cable 4m.

MT-R

Wired rain sensor with heating function, power supply 230Vac.

MT-WS

Anemometer and sun sensor. SWind speed sensor with wired contact 200mA 100Vdc and light sensor. Power supply 12-24Vdc.

MT-T100

Temperature sensor, cable length 100 cm. In combination with the rain sensor detects ice and snow.

CAM

Smart camera

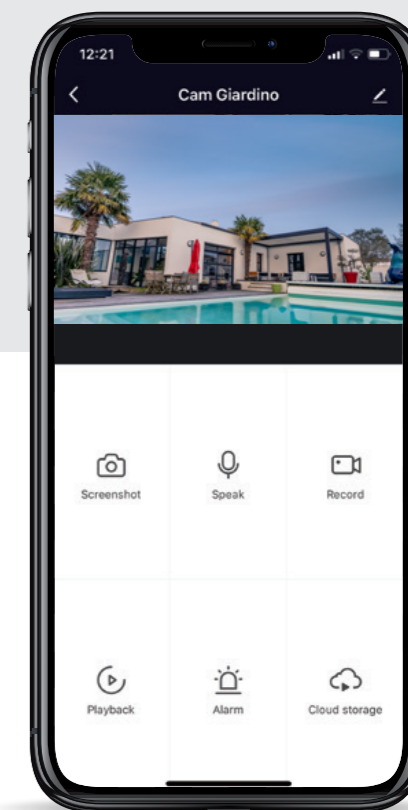

OUTDOOR VIDEO CONTROL

Adjustable camera with IP technology and WiFi connection, view what happens at any time, record on SD card or Cloud, send notifications when it detect a movement and, in combination with other OneSmart devices, create automations such as turning on garden lights when there is someone in the concerned area or in a specific time slot.

CAM

Smart camera

Cam 200

IP camera with adjustable bracket and 5V - 1A power supply on IP 67 plastic box.

Technical data

Code	CAM200
Power supply	5V - 1A
Night vision range	8-10 meters
Minimum brightness	0,01 Lux
Graphic resolution	1080P / 2M
Pixels	1920 x 1080 P
Image rotation	Yes
Audio	Integrated microphone + speaker
WiFi frequency	WiFi 2,4GHz
Protocols	IP, TCP, DHCP, WPS
Smart control remotely	App OneSmart
Streaming video	Yes, free
SD card recording mode	Yes - SD card noi included
Cloud recording mode	Yes, under subscription
Motion sensor	Yes
Notification	Push - 1 min delay
IP level	IP 66
Operating temperature	-20 +55 °C
Dimensions	80x80x16 mm

OneSmart is the App for managing all the pergola devices: lights, motors, heaters and smart camera. Thanks to our **Cloud infrastructure** it's possible to communicate with the devices from anywhere in the world. Is not necessary to install any gateway, you just need to have a **internet WiFi 2,4 GHz** connection to set up the Nexta tech devices in few steps.

Remote control

With OneSmart, you can control devices from anywhere in the world, create scenarios and hourly and weekly programs.

Scenario

With a simple set up, it's easy to create buttons that send commands to multiple devices simultaneously

Scheduling

Hourly and weekly programs for turning on-off lights and dimming. It is possible to set an event at a specific time or in a time slot.

Sunrise - Sunset

It recognizes sunrise and sunset through the geographical set-up. Useful for the automatic switching on and off of external lamps.

Notifications

You can receive a notification message when an event happens, such as turning on a light.

Centralization

It is possible to control single devices or group of devices, it's easy to realize "total on" and "total off" commands.
